

## Social Security Administration

## § 416.986

services. You will also be asked to provide proof that you paid for the items or services.

[48 FR 21940, May 16, 1983]

### BLINDNESS

#### **§ 416.981 Meaning of blindness as defined in the law.**

We will consider you blind under the law for payment of supplemental security income benefits if we determine that you are statutorily blind. Statutory blindness is central visual acuity of 20/200 or less in the better eye with the use of a correcting lens. An eye which has a limitation in the field of vision so that the widest diameter of the visual field subtends an angle no greater than 20 degrees is considered to have a central visual acuity of 20/200 or less.

#### **§ 416.982 Blindness under a State plan.**

We shall also consider you blind for the purposes of payment of supplemental security income benefits if—

(a) You were found to be blind as defined under a State plan approved under title X or title XVI of the Social Security Act, as in effect for October 1972;

(b) You received aid under the State plan because of your blindness for the month of December 1973; and

(c) You continue to be blind as defined under the State plan.

#### **§ 416.983 How we evaluate statutory blindness.**

We will find that you are blind if you are *statutorily blind* within the meaning of § 416.981. For us to find that you are statutorily blind, it is not necessary—

(a) That your blindness meet the duration requirement; or

(b) That you be unable to do any substantial gainful activity.

#### **§ 416.984 If you are statutorily blind and still working.**

There is no requirement that you be unable to work in order for us to find that you are blind. However, if you are working, your earnings will be considered under the income and resources rules in subparts K and L of this part. This means that if your income or resources exceed the limitations, you

will not be eligible for benefits, even though you are blind.

#### **§ 416.985 How we evaluate other visual impairments.**

If you are not blind as defined in the law, we will evaluate a visual impairment the same as we evaluate other impairments in determining disability. Although you will not qualify for benefits on the basis of blindness, you may still be eligible for benefits if we find that you are disabled as defined in §§ 416.905 through 416.907.

#### **§ 416.986 Why and when we will find that you are no longer entitled to benefits based on statutory blindness.**

(a) *If your vision does not meet the definition of blindness.* If you become entitled to payments as a statutorily blind person and your statutory blindness ends, your eligibility for payments generally will end 2 months after your blindness ends. We will find that your statutory blindness has ended beginning with the earliest of the following months—

(1) The month your vision, based on current medical evidence, does not meet the definition of blindness and you were disabled only for a specified period of time in the past;

(2) The month your vision based on current medical evidence, does not meet the definition of blindness, but not earlier than the month in which we mail you a notice saying that the information we have shows that you are not now blind; or

(3) The first month in which you fail to follow prescribed treatment that can restore your ability to work (see § 416.930).

(b) *If you were found blind as defined in a State plan.* If you become eligible for payments because you were blind as defined in a State plan, we will find that your blindness has ended beginning with the first month in which your vision, as shown by medical or other evidence, does not meet the criteria of the appropriate State plan or the first month in which your vision does not meet the definition of statutory blindness (§ 416.981), whichever is later, and in neither event earlier than the month in which we mail you a
